SITUATION 1

TECHNOLOGY VS. IN PERSON

You are talking with a friend about joining a Bible study group together. You know of a few different youth group studies happening at your church that you could join, and suggest them to your friend. They tell you that they would rather join a Bible study group online, as the in person groups seem like more work and less convenient. How do you respond? Think through the four questions and how they work in this scenario.

SITUATION 2

DATING NON-CHRISTIANS

One of your friends tells you that they like this girl in their class. They get along together great, have similar interests, and a lot of the same views on life. The only problem is that she is not a Christian. However, he insists that if they start dating, he could introduce her to Christ and she can start a relationship with Him. How do you help your friend navigate this scenario? Think through the four questions and how they work in this situation.
